iOS Application Development

CollegeProfileBuilder2 App

MVP: As a user, I want to see the college's website listed on the details view controller. As a user, I want to be able to click a button on the details view controller and be taken to the specific college's website in a safari view controller.

Stretch #1: As a user, I want to select from my photo library a new photo for each college.

Stretch #2 : As a user, I want to be able to add the college's website when creating a new college.

Stretch #3 : As a user, I want to be able to edit a college's website from the details view controller.

Skills Used for College Profile Builder 2

1. Creating SFSafariViewController
2. Accessing photo library and camera
3. Saving selected photo
4. Adding a property to a class
